

EVIDENCE 1

What is it?

Fruity footprints

What can we do with this?

Analysis of footwear characteristics and impressions can provide important evidence in a crime scene investigation. We will examine the fruit prints collected at the crime scene using a magnifying glass.

1. Use a magnifying glass to examine the set of fruit prints in the blue paint.
2. Compare what you see to the “database” of fruit prints provided
3. Which fruit do you think the fruit prints came from?
